DATA SCIENCE In Astroparticle Physics and Cosmology

An event showing the potential of data science in modern society and stimulating synergies between fundamental research and industry Data Science is the art of analyzing data sets to find correlations, causal relations, patterns; build hypothesis, assign significances to them,

DSPT#51 – Genetic algorithms are music to my ears (Braga)

"Data is everywhere" right? What information does it hide? How about one of our senses? From music to animals, objects to speech, Ricardo Pinto from Kelvin Inc will help us understand how data science can help us understand and distinguish sounds in everyday life. How about
